DEFINITIONS.

Dwelling is defined for the purpose of the Census as a room or a collection of rooms occupied by a household group living together as a family unit, whether comprising the whole or only a part of a house or other building (including temporary structures).

Family used in the headings to the tables means a household group living together as a family unit.

Private House (*Shared by Two or More Families*) is a private house shared by two or more family units for which only one Householder's Schedule was received, instead of separate Schedules for each portion occupied separately. Figures shown under this heading represent not " occupied dwellings " as defined for Census purposes, but " houses " occupied by more than one family.

Share of Private House is a portion of a shared private house which is occupied separately, and for which a separate Householder's Schedule was furnished. " Shares " are correctly described as dwellings for Census purposes.

Flat is part of a house or other building ordinarily intended for occupation by a separate family group and is a self-contained unit with both cooking and bathing facilities.

Tenement is part of a house or other building ordinarily intended for occupation by a separate family group but is not a self-contained unit and consists in the main of a room or rooms with cooking facilities.
